2016 KALLESKE FLORENTINE CHENIN BLANC

Brooding creamy style with a flinty lift to the nose, some classy oak and good varietal fruit.

Winestate Magazine, March/April 2017

90 points

"This is a very beautiful wine, though I found it quite difficult to establish the variety when tasting blind, as it is not very distinctive on the nose. There's a trace of flowers and some very faint oak. However, the palate is delightful open-textured and soft, with surprisingly bright, energetic fruit within. There are gentle pear flavours and faint background savouriness. Now that I know it is chenin blanc, it all makes sense, as it has energy, character and weight. There is more complexity than initially meets the eye and its vivacious nature makes it incredibly appealing."

Toni Patterson, The Real Review, February 2017
